24 January 2011

Dear Parent/Carer

The majority of students in Y11 have received GCSE results over the last week in English, Maths and some module results in Science.

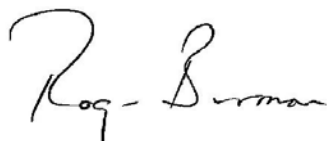

This has been a time of great success for many of them and these students are now either continuing to improve their grade or are taking additional qualifications within the subject area. Our wholehearted congratulations go to them.

For a number of other students this has been an opportunity to test themselves under the 'real' conditions of a GCSE exam. Whilst they have not yet achieved their target grade, the exam has allowed them and their staff considerable insight into the specific area that they need to address. They will all have the opportunity to take these exams again in May and will be offered once more a full revision programme.

The period from now until those exams in May and June is a pressured time for all our students and we will continue to offer the best support possible for each individual to help them achieve their goals.

If you have any concerns or issues you wish to raise please do not hesitate to contact the Behaviour for Learning Team, Mrs Sowerby, Mrs Joynes, Mrs Shaw; or Mrs Richardson, Deputy Headteacher.

Yours sincerely
